Gargaar Freighters Limited incorporated in Zambia in 2006 as a medium level company providing logistical solutions specializing in freight of bulk materials and provision of Heavy Industrial Equipment to the mining and allied industries.

Our clients success in business is our key area of competence. We value our clients value for Quick Freight Services. We are committed to honouring our agreements with our clients on time at all levels and to remain professional, honesty, transparent and objective in dealing with our clients.

Rescue and reliability

Gargaar Freighters Ltd consists of acid tankers, flat beds, tippers & water bowsers with the latest models.

All our fleet trucks are equipped with 24/7 satellite tracking system with real time reporting. Our dispatch office operates 24/7 with dedicated and qualified staff and rescue team is always on stand by.

Competitive edge

The company bases its competition strategies on services and product differentiation such as quality of performance, reliability and loyalty to customer relationship. This means that the customer is always assured of satisfaction in the standards of services delivered. Additionally, the company has a quick response to after sale service to ensure efficient delivery to the customers, Gargaar Freighters has committed itself to the policy of understanding its clients problem because we believe if you can't understand the customer then you will never understand the business and the services required.

Disputes

The Company Policy is to avoid disputes whenever possible. We have put in place a comprehensive site management system that will assist in identifying potential conflict and variance. This will enable Proactive corrective action to prevent disputes from developing.

Where disputes occur, managements philosophy is to aim for speedy, fair and courteous resolutions in the interest of maintaining long-term client relations.
